CXP 7700	Touch Tablet - for Atari 400/800/XL/XE with Atari Artist graphics program (ROM)	£49.00

NOTE 1: The new XC12 data recorder has now replaced the old 410 and 1010 recorders as well as the XC11 recorder. The new XC12 does not require a mains transformer as it receives its power from the power line in the I/O cable already built into the XC12. The XC12 will work on 400/800 computers as well as XL/XE computers.

NOTE 2: All XL Peripherals have been designed to work on both the Atari 400 and the Atari 800, as well as on the new 600XL, 800XL and 130XE home computers.

OTHER PERIPHERALS AND HARDWARE ENHANCEMENTS

Code	Description	Price
STP 2230	Casio CZ230S MIDI Keyboard - uses batteries/mains adaptor - see accessory section	£295.00
CXP 0900	Replay - Sound sampling system allows speech/music	£39.95
CXP 0905	Midi Master - A full feature MIDI interface - allows control of synthesizers/drums etc	£29.95
CXP 7800	US Doubler + Sparta DOS - Makes 1050 Disk Drive true double density and faster - see note 1	£49.95
CXP 8000	Voice Master - speech & music processor	£59.95

NOTE 1: The US Doubler is a chip which when installed in a 1050 disk drive gives true double density (180K per disk) and allows faster operation using a custom disk operating system (Sparta DOS). You will need to unswell the lid of your disk drive and plug the US Doubler chip into your drive. The only tools needed are a screw driver & pliers. No soldering is required and full instructions are included. US Doubler will not work on 810 drives.

PRINTER INTERFACES

Code	Description	Price
XLP 6000	Atari XEP80 - XL/XE only - 80 column composite video card and parallel printer port - see note 1	£59.00
CXP 0820	Graphix AT - Atari Printer Interface	£49.95
CXP 0100	Joyprint - Joystick Printer Interface Cable - includes cassette software - uses joystick ports 1 and 2	£19.95
CXP 0840	PR Connection - plugs into serial port to give one Centronics and two RS232 ports	£69.95

NOTE 1: Atari XEP80 80 column card can be used with monochrome and colour monitors. It requires a disk drive to operate and will enable certain software to run in 80 column mode.

NOTE 2: These interfaces allow connection of 3rd party printers such as Epson, NEC etc.

MODEMS (FOR ACCESS TO PRESTEL AND BULLETIN BOARDS)

Code	Description	Price
CXP 0200	Datatari Modem Interface - with Multi-Viewterm Program - on cass	£59.95
CXP 0202	Datatari Modem Interface - with Multi-Viewterm Program - on disk	£59.95

CXP 0364	Pace Series Four 2400S Modem - V21/V23, V22, V22BIS auto dial/answer	£559.00

NOTE 1: All modems will work with an 850 interface module and will gain you access to bulletin boards, information services, Compuserve etc which will all work on 300 baud. However in order to access Prestel you will need a modem and an interface module such as Datatari £59.95 which will support the Prestel split baud rate of 1200/75. Please note that the 850 interface does not support split baud rates.

NOTE 3: Modems require CXA 0090 connection lead at £19.95.

3RD PARTY SOFTWARE-A

THIRD PARTY SOFTWARE

In this section of the price list, entries are listed in alphabetic order, within an alphabetical list of manufacturers. Certain items of software are supplied complete with both cassette & disk. Where this is the case, we have shown a B in the 'Type' column instead of a C (cass), D (disk), H (hint book) or R (ROM). Many of the third party Atari titles originate in the U.S.A. In addition, certain U.K. companies also produce Atari software, these are indicated by the addition of (UK) at the end of the company name so that customers who prefer to buy British may do so.

ATARI CORP - APX SOFTWARE

This section of our price list covers APX, which is the trade name for ATARI PROGRAM EXCHANGE. This was set up by Atari to distribute user written software for Atari Home computers. Atari's goal was to increase the usefulness of all Atari computers by building a large library of high-quality, imaginative software appealing to users of various ages with different needs and interests. The products are offered inexpensively, by using simple packaging and also by relying on user instructions written by the program author, to APX standards. All APX titles are coded UX and there are four different categories:

UXE - Educational
UXG - Games
UXM - Miscellaneous
UXU - Utilities

NOTE: Some titles are only available in limited quantities.
